

# ALU-GARD EDGE

## SECURITY SCREENING SYSTEMS

ALU-GARD EDGE is the latest edition to the ALU-GARD range, the All-Aluminium security screening solution for Australian conditions. EDGE is a PVC pressure retention system that retains the ALU-GARD perforated aluminium sheet in an extruded aluminium frame.

ALU-GARD EDGE not only provides security, clarity of vision and strength, it is also corrosion resistant and looks great.

ALU-GARD

### ALU-GARD EDGE Design

ALU-GARD EDGE utilises a strong (1.6mm thick) aluminium sheet that is perforated and powder coated in Australia to exacting standards. The sheet is retained in a frame with our bespoke PVC pressure retention system. The resulting screen is strong, extremely resistant to corrosion and provides excellent clarity of vision.

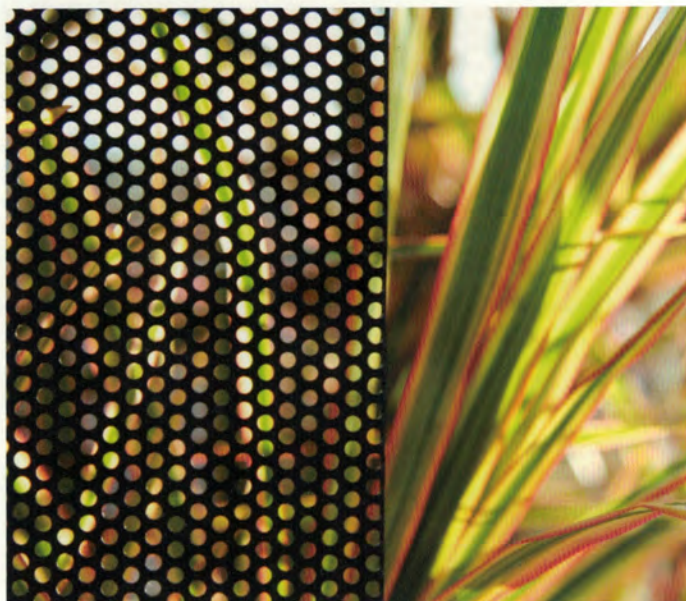

### The Complete Range

ALSPEC now offers the complete range of screening systems from our top of the range INVISI-GARD Stainless Steel Security Screens, through to ALU-GARD, Federation Cast Panels, Diamond Grilles, one way vision mesh, fibreglass and aluminium insect screen and all the associated accessories.

For a history of great service and quality built products when considering an aluminium screen door system, there's only one place that has all the solutions - ALSPEC.

### Choice of Stylish Colours

With ALU-GARD products, matching the colour to existing door and window frames is not a problem. A full range of powder coated colours along with anodised finishes are readily available from your ALU-GARD dealer.

### Custom Built

All ALU-GARD products are custom built, made to measure to suit your exact requirements.

ALU-GARD EDGE Security Screens are suitable for a wide range of residential and commercial applications including the following:

- Hinged Doors
- Sliding Doors
- Security Window Screens
- Balustrade
- Fencing

All fixings are covered with an adaptor ensuring a smooth and clean finished product.

### ALU-GARD EDGE Test Performances

The ALSPEC ALU-GARD EDGE Screen Door System has been tested in an approved NATA test rig to Australian Standards AS5039-2008 for hinged security doors:

<b>Knife Shear Test AS5039-2008</b>	<b>PASS</b>
<b>Dynamic Impact Test AS5039-2008</b>	<b>PASS</b>
<b>Lock and Lever Hinge Test AS5039-2008</b>	<b>PASS</b>
